SUMMARY

I am an AI & ML student, passionate about building practical, real-world tech solutions. I enjoy working with Machine Learning, exploring new technologies. From organising tech events to developing intelligent systems, I love creating experiences that combine innovation with purpose.

EXPERIENCE & LEADERSHIP

Operations Lead | Google Developer Groups (GDG) on Campus, Bharata Mata College | *2025– Present*

- Spearheaded the planning and execution of [Number, e.g., 5+] technical workshops and hackathons, impacting many students.

Content Lead | Google Developer Groups (GDG) on Campus, Bharata Mata College | *2024–2025*

- Curated and reviewed technical content for social media handles and workshop materials, increasing community engagement.

Radio Jockey (RJ) | RadioBMC | *2023 – Present*

- Developed compelling audio content and scripts, maintaining listener engagement and clear information delivery.

Stage and Anchoring Team Lead | ICAIML'26 at Bharata Mata College | 2026

- Volunteered and lead the Stage and Anchoring Team for The International Conference on AI and ML - 2026.

EDUCATION

Integrated M.Sc. in Computer Science | Bharata Mata College, Thrikkakara *2023 - 2028*

- Current Semester: 6th Semester (3rd Year)
- Relevant Coursework: Data Structures & Algorithms, DBMS, Web Technologies, OS, OOP.

Higher Secondary Education (Plus Two) | St. Teresa's CGHSS, Ernakulam *2021 - 2023*

- Score: 96% (Stream: Computer Science)

Secondary School Leaving Certificate (SSLC) | St. Joseph's CGHSS, Tripunithura *2021*

- Score: Full A+ (100%)

TECHNICAL SKILLS

- Languages: Java, C, C++, PHP, JavaScript, HTML, CSS, SQL, Python
- AI/ML: Machine Learning, Deep Learning.
- Developer Tools: Git, GitHub, VS Code, XAMPP (Apache/MySQL).
- Core Competencies: Event Management, Team Leadership, Technical Writing, Public Speaking.

PROJECTS

SeatScout – Exam Hall Navigator | *PHP, MySQL, JavaScript, CSS*

- Developed a full-stack web application for students to easily find their exam seats using their register number, replacing manual paper checking just before entering the exam hall.
- Built an Admin Dashboard featuring a bulk data ingestion system using PHP to parse and validate CSV files of student registrations.

Indian Legal Information Portal (Mini Project – In Progress) | *HTML, CSS, JavaScript*

- Developing a user-friendly web platform to demystify the Bharatiya Nyaya Sanhita (BNS) and IPC for non-legal users.
- Implementing a search-and-filter mechanism to allow users to quickly find legal sections relevant to specific keywords.
